Minnesota Academy *of* General Dentistry & DR.KOERNER BS, DDS, MS

present

ORAL SURGERY FOR THE GENERAL DENTIST

Faster, Easier, and More Predictable

APEX
Advancing Professional Excellence in Dentistry
A Fellow ● Mastertrack Continuum

This course will be a ***hands- on*** workshop. It is designed for the general dentist who desires competence and confidence in performing more complex oral surgery procedures.

Karl R. Koerner, BS, DDS, MS has presented hundreds of didactic and participation oral surgery courses at international, national, and regional meetings and at the state level for many dental associations and AGD groups. In 2008-2010, he was Head of the Oral Surgery Department at the Scottsdale Center in Scottsdale, AZ. Dr. Koerner received the Weclew Award in 2010 from the Academy of General Dentistry for his contributions to general dentistry and dental education. Dr. Koerner graduated from the University of Washington, School of Dentistry and then completed a General Practice Residency in the U. S. Army. He has a Master's Degree in Education. He is on the Clinical Research Associate's Board of Directors and editorial boards for the Academy of General Dentistry Journal and Dentistry Today.

if completing the clinical assignment

Tuition

$1195 AGD Member
$1495 Non-Member
(Early bird Special - $100 off!)

Limited to 30 Participants

Course objectives:

As a result of attending this course, the dentist will be able to:

- Perform oral surgery according to current standards of care.
- More easily do "surgical" or difficult extractions that frequently occur in general practice.
- Control patient anxiety related to oral surgery (one drug oral sedation)
- Better control or prevent swelling, pain, infection, and bleeding.
- Do third molar extractions smoothly, safely and effeciently.
- Handle surgical complications such as bleeding, infection, sinus perforations, and tuberosity fractures.
- Do bone graft (ridge preservation) procedures.
- Learn how to extract teeth atraumatically to preserve bone for implants.
- This course also covers alveoplasty, mini-implants, biopsies and apicoectomies.
